Golf Caravans The Savannah Maxxi

The Savannah Maxxi, designed
for the luxury adventurer.

golfcaravans.com.au

The Savannah Maxxi, designed for the luxury adventurer.

The Savannah series is the latest edition to Golf's range of specialist recreational vehicles. Golf have now released the Savannah Maxxi, a new frontier in pop-top caravans. It boasts a smart spacious layout with a huge range of features included as standard, making it perfect for any adventure with the creature comforts of home.

Packed with features, the Savannah Maxxi is designed for the discerning traveller. This caravan not only looks like the ultimate machine but you can be assured it will live up to expectation. Ideal for the social traveller or growing family, the Savannah Maxxi can comfortably sleep six people with many other comforts you have come to expect from the Savannah series. From the slide-out kitchen and fridge through to the dual water tanks and solar panel, all of your camping needs have been carefully

considered, designed and built into the Savannah Maxxi. It is one of the smartest adventure-style caravans in the market.

The Savannah Maxxi has everything you need to have an authentic caravan experience with a touch of luxury. Save time with the smart design allowing easy set-up and pack-down. The spacious layout ensures you stay comfortable while providing enough room for the growing family or plenty of friends with two fold-down double beds at either end of the van, café dinette seating which also drops into a large double bed, and a spacious shower and toilet. Also, the rear bedroom can be folded away when not in use, making the Savannah Maxxi unlike any other van in its class.

The Savannah Maxxi is perfect for your adventures with the independent coil suspension and hot dipped galvanised chassis guaranteeing strength and durability; both have been

specifically designed for Australian conditions. The smooth panel construction provides superior strength without the weight, so you have a lighter vehicle and better fuel economy when travelling on the open road, and the trailing arm suspension with coil spring has been specially designed from high grade steel to ensure every drive is the best it can be.

The 80-watt solar panel combined with the 100amp/hour deep cycle battery allows the Savannah Maxxi to be self sufficient for longer so it can take you to some of our country's more remote locations. From the slide-out Waeco draw fridge, gas stove and gas/electric hot water service, to the rear bumper with two jerry can holders, all of your outdoor living needs have been catered for. Enjoy our expansive country with the perfect caravan for the job - the Savannah Maxxi.
